No Lost Generation
Tech Task Force

Frank Schott
NetHope
65 million people around the world were forced to flee their homes. Among them are 21 million refugees, over half of whom are children and youth. Refugee children are 5x more likely to be out of school than non-refugee children.
Half of Syrian refugees are children.

Inside Syria, 1.75 million children and youth are out of school.

Outside of Syria, only half of school-age Syrian refugees are accessing education.
